## About Me

I am a UI/UX-focused Frontend Developer with internship experience at Studio Kami Mandiri. I design and build responsive, user-friendly interfaces using HTML, CSS, JavaScript, and React. With a background in Information Systems, I combine design thinking with technical implementation to create intuitive digital experiences.

## Experience

- Jul 2022 - Des 2022  
**Web Designer**  
Studio Kami Mandiri
  - Designed and developed responsive web interfaces using HTML, CSS, and JavaScript
  - Improved layout structure and visual consistency across internal web pages
  - Assisted in data management using Excel and supported internal system updates omotional materials including
